Wutthichai Kummala (Wut)

Software Engineer

wutthichai.kmm@gmail.com
095-393-3383

Professional Summary

Dynamic Software Engineer with a proven track record at G-able, specializing in developing scalable code and enhancing user experiences. Skilled in Agile methodologies and team collaboration, I have successfully integrated new technologies and implemented reusable components, significantly improving project efficiency and software reliability. Proficient in applying AI tools to enhance workflow automation, optimize processes, and reduce project turnaround time.

Work Experience

Software Engineer | G-able | Bangkok, Thailand 5 years 1 month (February 2020 – March 2025)

- Developed scalable and maintainable code, ensuring long-term stability of the software.
- Integrated new technologies into existing systems, increasing capabilities and improving overall performance.
- Enhanced user experience by implementing responsive web designs and optimizing application performance.
- Developed reusable components to facilitate faster development timelines and improve overall code quality

Key Projects

Project Name	Role	Framework	Description
SCG Expense (2020)	Frontend	React	Developed expense and budget management system using React + Ant Design
PTTEV Web Admin (2021)	Frontend	Next.js	Created EV Station admin system (log, monitor, dashboard) using Next.js + Ant Design
Bangkok Civil Dept (2021)	Frontend	Vue	Developed city infrastructure management system using Vue 2
PawnShop (2022)	Frontend	React	Developed pawnshop using React + Ant Design
G-Consent (2022)	Frontend	Next.js	Developed PDPA consent management system using Next.js
TAGTHAi Web Admin (2022)	Frontend	Angular	Created admin platform for TAGTHAi using Angular
Honda Leasing (2022)	Frontend	React	Developed leasing and financing system using React
Whiteface.co (2023–2025)	Frontend	Next.js + Ant Design	PDPA, Cookie Banner, and Consent management platform using React
SEC Incident (2023)	Frontend	Vue	Built incident tracking system for SEC using Vue
Lockton Core Broking (2024)	Frontend	Angular	Developed core broking management system for Lockton
TCRB eSaving (2024)	Frontend	React Native	Developed mobile banking app for TCRB using React Native
Evall Admin (2025)	Frontend	Next.js	Developed EV station management dashboard using Next.js
Readvel (2024–2025)	Full-stack	Next.js + Apollo + MongoDB	Developed serialized novel marketplace and admin system
FriendTrade.app (2025)	Full-stack	Next.js + Supabase	Built escrow-based trading platform and payment flow system

Technical Skills

Frontend React · Vue · Angular · Next.js · React Native · TypeScript · JavaScript

Backend Node.js · Express · Apollo Server · REST API · GraphQL

Database MongoDB · PostgreSQL · Supabase · NoSQL

Others Agile methodologies · Scrum · Software Documentation · Project Planning · AI Integration

Education

Bachelor of Science in Computer Engineering May 2016 – March 2020

Panyapiwat Institute of Management — Nonthaburi, Thailand
